

Stock MOCC lightweight witness: G2 signal detection

non-certifying; TRACE=1 build

Commits: exposure, not performance

BACK_OFF=0: one-sided Fisher (on lower, unadjusted) p = 0.500

BACK_OFF=1: one-sided Fisher (on lower, unadjusted) p = 0.500

Not significant is not equivalence; power 0.105 is calculated under design assumptions.

G2 signal: verifier detection; does not identify a root cause.
