

A-2 four-cell certification — trace-disabled performance

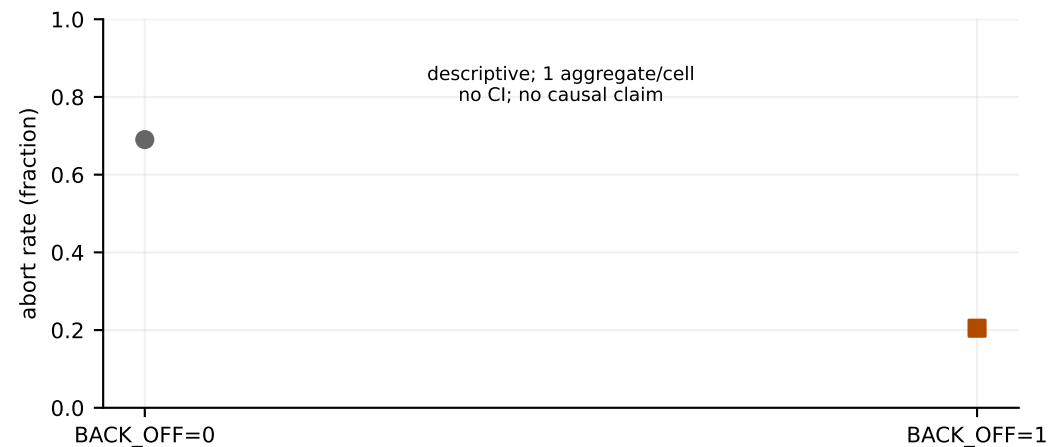

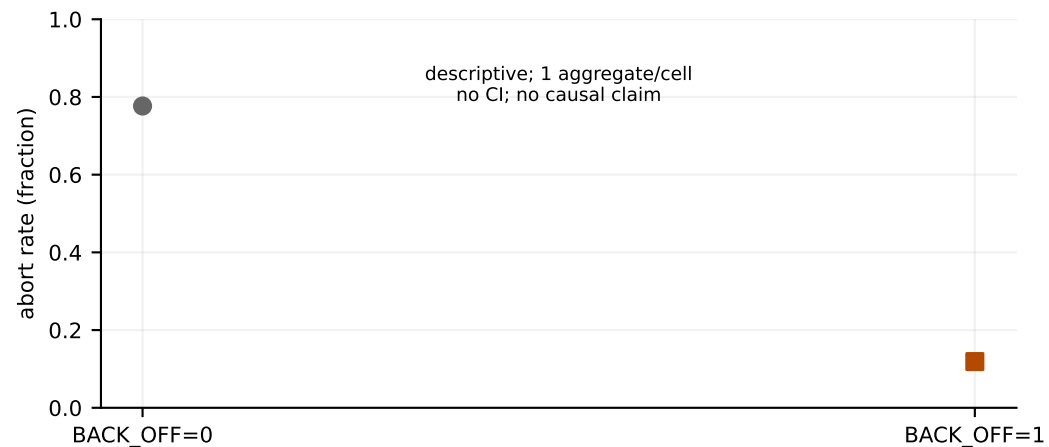

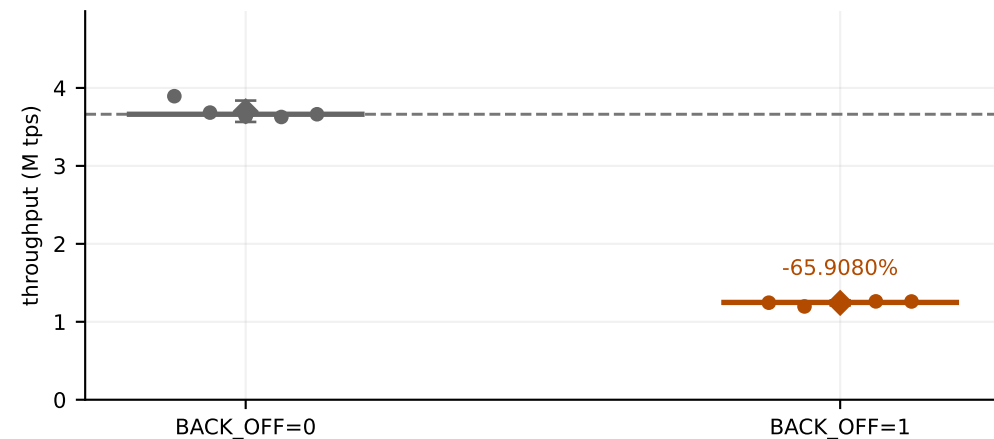

outer status: reject (protocol status, median ratio)

correctness: separate trace-enabled runs, all 4 cells certified — not a performance certification

write-heavy (rratio 5)

balanced (rratio 50)

CCBench built-in adaptive backoff

CCBench built-in adaptive backoff

Throughput axes are scaled independently by workload; abort axes share 0-1. Mean t95 CI is descriptive.
